

# KAAP PARK

Plan area on the harbour peninsula

Sunken playgrounds are used as ice-skating rink in winter

Contrast of atmospheres:

- cool, wind, sky, industrial on the outside of the peninsula
- warm sheltered, vivacious on the inside, in the park

Project: Kaap Park  
Client: City of Rotterdam  
Location: Rotterdam -The Netherlands  
Area: 2.4 ha.  
Duration: 2001-2005  
Status: Constructed (€ 1.5m.)  
Partners: OKRA landscape architects

Design for a new park on a mixed use peninsula in the old harbours of Rotterdam.

PROJECTS WONDER CITY+LANDSCAPE

The scenario game with the community, civil servants and politicians played an important part to come to a successful design, celebrated by the neighbourhood.

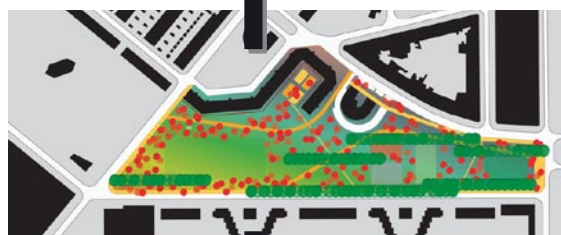

Scenario game on use, surface area and budget
